Good afternoon.

I refer to letter re material amendments to Draft CDP Map Summary. This letter states that it is proposed to close the Kilbride / Portar Road between points A + B.

This will greatly impact on the quality of life for us and it will lead to much disruption and stress to all the residents in our area. The emergency services will take much longer to reach

Our cul de sac if the new road  
goes ahead.

In addition to this, there will be  
a huge increase in traffic in the  
area. Currently it is dangerous to walk  
on our roads but when traffic volumes  
increase this will be virtually impossible.

We enjoy the rural setting in our area  
and are extremely anxious that this  
will be taken away from us with all  
the planned development.

Regards

Monica & Eoin Doolan
